6036 SERIES LED TUBULAR LIGHT FITTING

The multi-purpose pioneer among LED luminaires
R. STAHL’s 6036 Series LED tubular light fitting was designed and built for the most demanding environments. The result is safe lighting with the lowest maintenance requirements and clear energy savings.

The highlights:
- Tested in accordance with IK10+, the design can withstand severe impacts and vibrations.
- The water- and dust-resistant (IP68) construction weighs between 0.96 kg and 2.5 kg depending on the version.
- Service life of up to 80,000 hours at +60 °C – and up to 100,000 hours in the normal range of +25 °C.
- Brightness of two conventional 36 W fluorescent lamps with approx. 34% less power consumption.
- Meets the strictest EMC requirements so that it does not influence even sensitive navigation equipment on ships.

Whether it is used in the oil, gas or chemical industry, in mechanical engineering, plant construction or mining, for remote instrument buildings (RIBs) or for maritime applications, the 6036 Series LED tubular light fitting is multi-purpose, efficient, robust, ultralight and provides reliable safety over a large temperature range. This makes it a real pioneer in its class.

Talk to us. We will find the perfect solution for every application – including yours.
**LED tubular light fitting with blue light**

- **Power:** 16 W
- **Length of the luminaire:** 444 mm (17.5")

**LED tubular light fitting with green light**

- **Power:** 28 W
- **Length of the luminaire:** 762 mm (30.0")

**LED tubular light fitting with red light**

- **Power:** 38 W
- **Length of the luminaire:** 1059 mm (41.7")

**LED tubular light fitting with yellow light**

- **Power:** 49 W
- **Length of the luminaire:** 1382 mm (54.4")

**LED tubular light fitting available in three colour temperatures:**
- Warm white (4000 K)
- Neutral white (5000 K)
- Cold white (6500 K)

---

**Robust** due to an extremely impact-resistant polycarbonate enclosure with high strength, especially for harsh conditions and mining applications.

**Extremely long service life** due to the use of high-power LEDs.

**Optional diffusor optics** — minimises glare.

**For 220–240 V AC.**

(For size 1 also available in 12 V DC, 24–48 V AC/DC or 110–240 V AC/DC.)

---

**Available in four sizes**

ACCESSORIES & SPARE PARTS FOR THE 6036 LED TUBULAR LIGHT FITTING*

STANDARD MOUNTING
Direct mounting on the ceiling or on cable ducts using M8 or M10 thread. Available in sheet steel or stainless steel.

POLE MOUNTING
Clamp ideal for pole mounting. Plastic version, therefore rustproof and resistant to corrosion.

WALL AND CEILING MOUNTING
Robust mounting clamp for harsh industrial environments. For increased corrosion protection, also available in stainless steel.

* Plug and mounting material must be ordered separately. For details, see data sheet.

OTHER LED HIGHLIGHTS FOR HAZARDOUS AREAS

6002/6402 SERIES LED LINEAR LUMINAIRE
Its efficient LED technology, low weight and ability to be installed easily make the EXLUX the optimum ceiling-mounted, pole-mounted or pendant light fitting for both indoors and outdoors.

6009/6409 SERIES LED EMERGENCY LUMINAIRE
All luminaires in the EXLUX 6009 Series are approved as emergency lighting for hazardous areas in Zones 1 and 21. The built-in automated test functions reduce maintenance costs.

6050/6 SERIES LED UNIVERSAL SPOTLIGHT
The cost-efficient and flexible multifunction spotlight boasts a long service life, low-maintenance operation and innovative “chip on board” LED technology.
