

8006/4-004-00 Art. No. 169493

- Can be used as motor, main or load disconnect switches, as well as control switches
- Rated operational voltage up to 690 V AC and 220 V DC
- Different switching arrangements available

MY R. STAHL 8006B

R. STAHL Series 8006/4 load and motor switches have isolating characteristics and AC-3 and DC-23 switching capacity. This makes them suitable for use as motor switches or main switches. They can also be used as control switches. They are available with different switching arrangements, from 2-pole to 12-pole.
