

# Isolator Barriers

Transmitter supply unit

Ex i field circuit

9260/13-11-10k Art. No. 261387

STAHL

- Universal use for transmitters and mA sources (4-wire transmitter)
- Slim design – 12.5 mm wide – for one- and two-channel versions
- Can be used for safety levels up to SIL 2 (IEC/EN 61508)

MY R. STAHL 9260A

Series 9260 Ex i transmitter supply units can be used for the intrinsically safe operation of transmitters or intrinsically safe mA sources such as 4-wire transmitters. The device allows HART signals to be transmitted in both directions. The portfolio includes one- and two-channel devices and a variant for signal duplication.

## Technical Data

### Explosion Protection

## Electrical Data

|                               |      |
|-------------------------------|------|
| Number of channels            | 1    |
| Transmitter feed operation    | Yes  |
| Isolation amplifier operation | Yes  |
| LFD relay                     | No   |
| Communication signal          | HART |

## Auxiliary Power

|                                 |                 |
|---------------------------------|-----------------|
| Auxiliary power                 | 24 V DC         |
| Auxiliary power nominal voltage | 24 V DC         |
| Auxiliary power voltage range   | 19.2 ... 30 V   |
| Auxiliary pwr nom. voltage DC   | 24 V            |
| Nominal current                 | 76 mA           |
| Max. power dissipation          | 1.2 W           |
| Power consumption               | 1.8 W           |
| Polarity reversal protection    | Yes             |
| Operation indication            | Green "PWR" LED |

## Galvanic Isolation

|                               |                      |
|-------------------------------|----------------------|
| Test voltage as per standard  | EN IEC 60079-11      |
| Ex i input to output          | 375 V peak value     |
| Ex i input to auxiliary power | 375 V peak value     |
| Test voltage as per standard  | EN 61010 / EN 50178  |
| Output to auxiliary power     | 300 V <sub>eff</sub> |
| Output to output              | 300 V <sub>eff</sub> |

## Input

|                                  |                                               |
|----------------------------------|-----------------------------------------------|
| Input function                   | Isolation amplifier<br>Transmitter power unit |
| Input                            | 0/4 ... 20 mA with HART                       |
| Input signal                     | 0/4 to 20 mA with HART                        |
| Function range input             | 0 ... 24 mA                                   |
| Short-circuit current            | ≥ 22.5 mA                                     |
| Supply voltage for transmitter   | ≥ 16 V at 20 mA                               |
| Isolation amplifier voltage drop | < 3,5 V                                       |

## Output
