

Workst.Client/Serv Dell Micro 1TB R3.0 Art. No. 347239

- Compact design, space-saving construction – Ideal for discreet installation behind monitors or televisions.
- Optimised for CCTV – Specifically configured for the display and management of video surveillance systems.
- High performance – Powerful hardware for the reliable display of multiple camera streams with low latency.

MY R. STAHL

This Dell PC, specially configured for video surveillance applications, combines reliable performance with an exceptionally compact design. It enables the smooth display of surveillance camera feeds via standard video management systems (VMS) and, thanks to its space-saving dimensions, can be discreetly mounted behind a monitor or television. The ideal solution for modern surveillance and security workstations.
